Git Assignment-1: Initialize a new Git repository in a directory of your choice. Add a simple text file to the repository and make the first commit.

Navigate to your desired directory

cd /path/to/your/directory

Initialize a new Git repository

git init

Create a simple text file

echo "This is a simple text file." > simple.txt

Add the file to the repository

git add simple.txt

Make the first commit

git commit -m "Initial commit"

Output:

Initialize a New Git Repository:

Initialized empty Git repository in /path/to/your/directory/.git/

Create a Simple Text File: No output for the **'echo'** command

Add the File to the Repository:(No output for the "**git add .**" command)

Make the First Commit:

[master (root-commit) 1a2b3c4] Initial commit: Add simple text file

 1 file changed, 1 insertion(+)

 create mode 100644 simple.txt
